hands glitch. It has a long way to go to be really worth anything replay value wise. But for 5 bucks... I really can't complain too much.. Huge Texture problems. Cant find the fix. The game loads with aircraft under the runway! Keep away until its fixed!. A cute little game!

If you're looking for a VN with twists and turns and groundbreaking events, this isnt for you.

But, If you want a relaxing VN, with laughs and cute moments, this will be just what you're hoping for.

The game itself is very Beautiful, with adorable characters and a quirky (in a good way) soundtrack, and the way it is presented will leave you wanting more backstory on all of the characters.

I found it refreshing, and very cute. It definitely filled the hole in the heart for a light-hearted Visual Novel, and I cant wait to finish more of the secrets endings and play the other paths when they come out :). Basically a visual novel with some card-battle and poker elements shoehorned in to add "gameplay". Story is about as tacky as you can imagine and there is little to no variation in gameplay throughout the game.

This is 100% a grinding RPG. And has some elements of a dating sim. I liked it but i like grinding so if your into that i think you will have fun with this game. My only issues are that theres not to much direction so you have to figure it out on your own which can also be fun in a way. And the last issue is that after the update that just happend my 7+ hours of game play just got erased so i prb will not ever play this game again. I hope the creator of the game fixes this issue for the future but until then im done with it.

overall i give it a 5/10 more if the update didnt wreck my game.. I have i7-8700k. This game is pure fun! The controls are tight, the artwork is adorable, and the mechanics are easy to understand while also being complex and enjoyable to utilize! I absolutely love this game! :D. Cute fast-paced match-3 with a lot of content at a very small price. You gotta keep an eye on the grid as well as on the enemy progression, and collect mana to send fairies fight the evil. The enemies have different skills to disturb your plans, and the playgrounds also have some particularities to spice things up. There also are bosses ! All in all, the game is great, especially if you like match-3. It has an excellent value for the price asked, there are a lot of achievements, steam trading cards and steam cloud. Nothing wrong here, nothing to dislike :). if you are bored and nothing to do .. play ZUMA :)

I would recomend this game because it is a fun puzzle game to play. Knut M\u00fcller did an awesome remake of this game. I like playing puzzle games, and this one is pretty clever. You look for different clues to solve different puzzles to advance the game. Even though the graphics might be outdated, it still looks and pays good on windows 10. Coodos and a big thankyou to Knut M\u00fcller for making an intresting and fun game to play.. Very enjoyable add-on.

I can't comment on the Angrund campaign as I've yet to get more than a couple of turns in, but the Crooked Moon campaign is excellent. Skarsnik's armies feel very different from the Greenskins. You'll spend most battles with a monster or two holding the centre, before hordes of highly buffed goblins spring from nowhere to poison your enemy and break their flanks. It is a very satisfying feeling to see a unit of elite dwarf ironbreakers fall to a couple of your cheap and chearful Nasty Skulkers.

I'm a little concerned about the Regiments of Renown. Although it is fun to add a unique unit or two into your army's lineup, they do feel a little overpowered in the campaign (Skarsnik's or the vanilla Greenskins). The inclusion of Regiments of Renown does make the game feel a little pay-to-win.. Quite fun. Good mahjong game.. Music is amazing and the gameplay is enjoyable.
